

# Green in our cities

Colour me in!

What green space have you seen or visited this week? What did you see or do in your green space?

It may be a small park, a garden, a tree on your street or perhaps your favourite flower pot at home.

We want to find out more about what you love about this green space, what you do there and how it makes you feel. With this discovery pack you are going to create your own dream square for the future using collage, colours, patterns and textures!

Help us to collect and identify ideas for Grosvenor Square. Share your creations by uploading them to the 'Have your say' section on [grosvenorsquare.org](http://grosvenorsquare.org) or email us at [grosvenor.square@grosvenor.com](mailto:grosvenor.square@grosvenor.com)

Keep an eye out for the camera icon in your pack. If you spot it, take a snap of your creations and share with us!

This makes me feel happy

This makes me feel happy

I love this green space because of...

# Let's take a closer look at our green space

**Use this viewfinder to tell us more about what you love, how you use your green space and how it makes you feel.**

**Don't forget to snap a pic of your viewfinder in action, and share with us online!**

Choose one of the questions on the sides of the viewfinder and answer it by framing your answer inside the viewfinder!

Follow the instructions on the reverse to make your viewfinder.

This makes me feel calm

This is a fun part of my green space

Cut along the dotted lines

I love this green space because of...

## You will need:

Cardboard, scissors, tape, glue and a pen (optional)

1. Find a piece of cardboard that you can cut with scissors!

2. Cut into 4 strips roughly the below sizes:  
2x **1.5 by 21cm**  
2x **1.5 by 10cm**

3. Place your card strips in a rectangle like above, with the two small strips inside the long strips and tape together as shown.

4. Cut this frame out and stick on top, or write the questions on each sides of your card rectangle. **Ta da! Take your viewfinder out for a spin and see what you find**

\*If you don't have glue, scissors or card at home **you can turn other household items into a viewfinder!** For example, write your questions around the edge of a toilet roll and decorate it.

This makes me feel calm

This is a fun part of my green space

# Imagining your dream square

We want you to imagine your own dream square of the future - what would it look like? what activities would you do there? how would it make you feel to go there?

Imagine that your square is quite big, so it doesn't need to look and feel the same in every corner, you can choose between 3-6 different ideas for your dream square.

If you have some old magazines, newspapers, boxes or wrapping paper have a look through these to find some colours, materials, patterns and textures that answer some of these questions. If you don't have any of these materials or glue you can also pick a few colours and draw your own patterns!

**1** Can you find or draw a pattern that makes you think of a calm space?

**2** Look for 2 different colours, textures or pictures that make you think of a fun space

**3** What things would you have in your dream square to make you feel happy? See if you can find some pictures and patterns or draw your own

**4** What will make your dream square feel surprising? Can you pick out colours and textures that show this?

**5** Will there be areas of your square that are wild, or will it be organised and tidy? Can you find or draw a pattern that shows this?

**6** Is there anything else that you want to add to your dream square? Add or draw a pattern or texture and tell us how you want people to feel.

# A green space of the future!

Using your drawings, colours, textures and patterns on your 'Imagining your dream square' worksheet, fill in the areas of your square to show us where you want things to go and how you want people to feel in your future green space.

Make sure to fill the square with all of your ideas and activities! For example, if you want your dream square to be more calm than surprising, cut out bigger sections of the calm pattern and place these in the square with smaller bits of paper for the surprising areas.
